To Whom It May Concern:

I just received a letter from the USPTO asking for a new oath or declaration. I know I signed the declaration before sending the patent Information to the office. Therefore there must have been some way that it was misplaced. Actually I also claimed my self a United States of America citizen, but the office did not some how get that information from my patent application. I was also told that I did not give the complete address of the inventor, whom I am, but that leaves me to think how I received the letter from the United Patent and Trademark Office.

Please understand I am not trying to make this difficult, I know that filing a patent can be tedious. I have been waiting for 8 months now.

I was also I asked to pay a surcharge which I feel is unnecessary due to the fact I recall sending forth all the required information in my application.

The Statutory basic filing fee I was asked to send in, being a total of \$1.00 will be sent I soon as I receive a letter from the office explaining what could have possibly happened to my information.

I have attached the "Must" be returned information the office asked for with this reply.

Please, if any information such as the Oath or Declaration was misplaced, and you need me to resign another one, please send me the document or documents you will need stating the correct process you will need me to follow.

I am a citizen of: The United States of America
